Note: State regulations are reported in a section on Description and Critique of Current HLS Practices in the paper describing the home language survey practices of each state as:

Practice A: the SEA created a single HLS and mandates its use in schools state-wide, or the SEA provides a minimum number of mandated HLS items for LEAs to use;

Practice B: the SEA mandates the use of an HLS and created an HLS that is offered as a sample for districts to adopt or to substitute for their own version of an HLS;

Practice C: the SEA mandates use of an HLS but allows districts to create their own set of survey questions for the local context;

Practice D: the SEA does not mandate the use of an HLS. Where possible, website links to sample HLS are provided.

*In the case that no SEA sample HLS was provided or publicly available, we included either SEA recommended criteria from various state documents or LEA-created HLS where available.

† The SEA provides a number of mandated HLS items for LEAs to use but does not provide a state-created HLS.
